Subject: RE: Georgia CCR Program - Request for approval application
Date: Wednesday, May 24, 2017 3:49:51 PM
Attachments: [Attorney General Certification for program approval.docx](#)

Good afternoon,

My understanding from our last conference call on May 11th is that we (Georgia EPD) would begin working on the narrative portion of the application addendum and would submit it to all of you for comment and discussion for our next call. Due to our recent activity in reviewing and approving CCR Management Plans from six MSW Landfills, we have not had a chance to make any progress on the narrative. As a result, we propose canceling the conference call for tomorrow (5/25). We plan to begin work on the narrative over the next two week period and will send a draft to you for review and comment for the June 8th call if we have made sufficient progress. Unless we hear that EPA would like to keep the call for tomorrow, we will consider it canceled.

We do have one document that we would like for you to review. Laura Williams has completed the draft Attorney General Certification Letter, which is attached below. Please review this letter and let us know by June 1st if you have any comments. If you need additional time for review, please let me know. We would like to send this to our Attorney General as soon as possible for their signature.

We greatly appreciate your help in reviewing the above document and your understanding in the delay in sending you a draft narrative. Unless I hear otherwise, I look forward to receiving any comments that you may have on the draft Certification by June 1st and speaking with you on the next conference call scheduled for June 8th at 1 p.m. EST.
